

# ART TREK

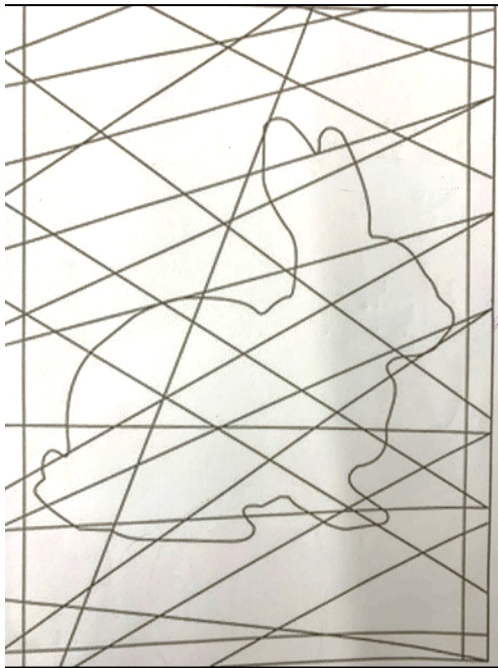

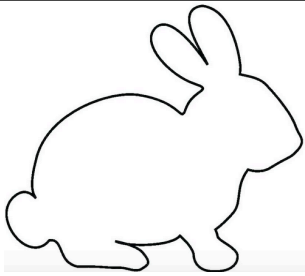

## *Colorful Conejo*

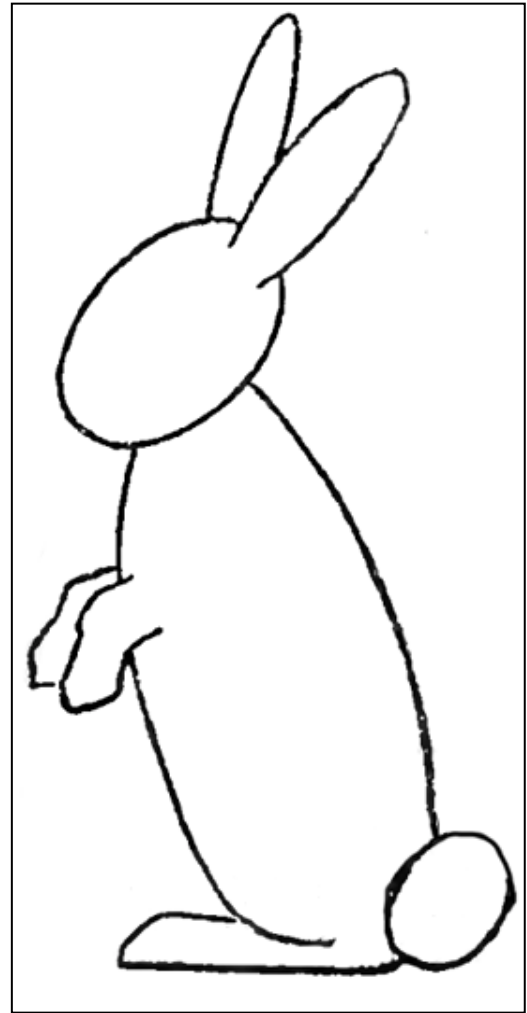

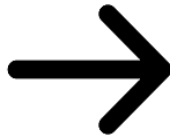

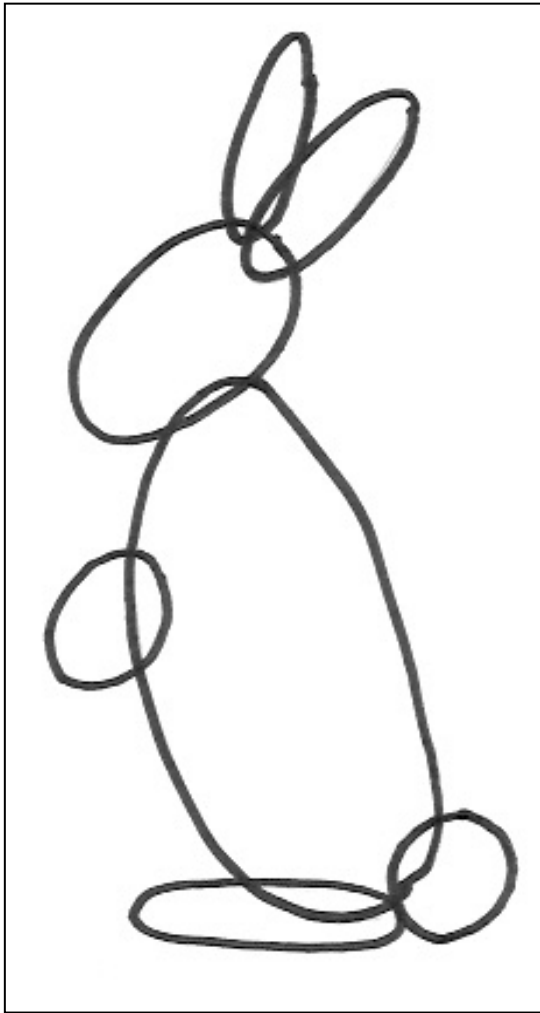

Materials:  
Copy paper  
pencil  
crayons or markers  
ruler or straight  
edge(optional)

1. Using a pencil, copy one of the bunny images onto a piece of copy paper. Look at the shapes underneath. Fill the whole page.
2. Now lightly draw criss-crossing straight lines (using a ruler or straight edge), or gentle curvy lines from edge to edge and going through the bunny.
3. If you like, go over the pencil lines with a crayon or marker (not too dark). Color in the bunny and the background using a different set of colors. For example, if you color the bunny with light colors, then make the background in dark, different colors.

**Vocabulary: conejo, straight edge, background**

With pencil, lightly draw the ovals and circles to create the bunny. Then smooth around the outside to make your completed bunny, adding the paws. Outline in sharpie or crayon and erase the pencil lines. Now follow the rest of the lesson directions.
